Water & Sewer

WATER & SEWER

- Applications
- Project management
- Design

Sydney Water is the Statutory Authority responsible for all sewer mains and water mains within the Sydney Greater Metropolitan region.

An infrastructure network of this significance in terms of its size and the amount of customers who access it requires that qualified professionals are responsible for its expansion and adjustment.

Our Water and Sewer team has three dedicated, Sydney Water accredited, Water Servicing Professionals working full time on Sydney Water asset adjustments and extensions.

Our services are critical to the timely completion of developments.

Sydney Water Services

KFW is well known in the Sydney Water area of operations for producing quality outcomes to complex water & sewerage issues. Current and past clients include the RTA, State Rail, Councils & Large Developers.

Major Infrastructure adjustments for the RTA include the Northern Distributor Extension, major intersection upgrades to The Avenue & Princes Highway in Figtree. Freeway off ramps to both the North & South bound lanes at Kiama.

Recent Large Developer Subdivisions includes the Estates of Greewnview & Redgum. Work has recently completed on providing solutions to the Bulli brick redevelopment site, which comprises of 200+ dwellings.

KFW also have personnel that are dedicated to the smaller Developer for a full range of our services visit our website at www.kfw.net.au .
